Re: **Support for the Città di Vico Equense's application to become a *UNESCO Creative City of Gastronomy***

Esteemed Mayor Aiello,

It was with great pleasure that we learned of the initiative taken by the municipality of Vico Equense to apply to the 2023 call to become a City of Gastronomy within the frame of the Network of UNESCO Creative Cities.

As a City of Film, designated in 2015, Rome strongly supports this application, and expresses its interest in a collaboration between our fields of expertise on future events and initiatives that can bring together the world of cinema and that of gastronomy, of which Vico Equense is undoubtedly an example of excellence at international level.

Confident that the presence of the City of Vico Equense can add further expertise and enrichment to the already prestigious international network of Creative Cities, we therefore express all our support to its candidacy, and hope for this important achievement.

Kindest regards,

A handwritten signature in black ink, appearing to read "Alexia De Vito".

Alexia De Vito
