Support for the Città di Vico Equense's application to become a UNESCO Creative City of Gastronomy

Esteemed Mayor Aiello,

It was with great pleasure that we learned of the initiative taken by the municipality of Vico Equense to apply to the 2023 call to become a City of Gastronomy within the frame of the Network of UNESCO Creative Cities.

The Associazione Italiana Turismo Enogastronomico aims at advancing the knowledge of gastronomy tourism. It annually publishes the *Report on Gastronomy Tourism in Italy*, stimulates research into the field, fosters innovation also through dissemination and supports ongoing and future initiative like the application of Vico Equense for becoming UNESCO Creative City of Gastronomy

Confident that the presence of the City can add further expertise and enrichment to the already prestigious international network of Creative Cities, we therefore express all our support to its candidacy, and hope for this important achievement.

Kindest regards,

Roberta Garibaldi

President of Associazione Italiana Turismo E nogastronomico
